Homeopathy is grassroots medicine: with a few remedies and some basic instructions, anyone can benefit. In this three-part class, we will explore the philosophical tenets of homeopathy and how to apply this knowledge for practical use at home. Participants will leave with a deeper understanding of the art and scope of homeopathy and the tools needed to facilitate healing and resilience in themselves and others. Several handouts and resources, as well as a copy of *Everybody's Guide to Homeopathic Medicines* by Stephen Cummings and Dana Ullman, are included in the cost and will be referred to throughout the course. No prior knowledge of homeopathy or experience required.
